ANNOUNCEMENTS OF NEW INDUSTRIAL PRODUCTS

BUDAPEST LIGHT INDUSTRY EXPANDS -- Budapest, Magyar Nemzet, 25 Jun 52

Local industrial enterprises in and around Budapest are expanding their production lines by introducing a variety of new items. The Budapesti Finomacselrugogyar (Budapest Fine Steel Spring Factory) will manufacture all types of household scissors, shears, and razor blades; the Budapest Fegyombarugyar (Budapest Metal Button Products Factory) will make thimbles; the Fovarosi Fismechanikai Vallalat (Budapest Precision Tool Enterprise), razor blades and engineering precision implements; and the new Budapesti Esernyogyar (Budapest Umbrella Factory) in Ujpest, all kinds of umbrellas.

MINIATURE SEWING MACHINE ON MARKET -- Budapest, Magyar Nemzet, 29 May 52

A new miniature, portable sewing machine is being marketed by state stores. The machine is 40 ⁵/₁₆ centimeters high, 12 centimeters wide, electrically driven, and weighs only 4 kilograms. Despite its compact dimensions, it operates as precisely and efficiently as the standard-sized models.

COMPLETE BLUEPRINTS FOR MACHINE TO MAKE NEEDLES -- Budapest, Magyar Nemzet, 4 Jun 52

Endre Domokos, Kossuth-Prize winner and chief engineer of the dress industry's central machine repair shop, has completed blueprints for a machine which will make sewing needles. It is expected that the new machine will satisfy the national demand for sewing needles almost completely, thus obviating the need for imports.

TO EXPORT RAZOR BLADES -- Budapest, Magyar Hemszet, 1 Jul 52

A new enterprise of the Budapest City Council, the Budapesti Finomacselrugogyar, will soon begin exporting razor blades. Blades for export will bear the names Budapest and Uj Korzak. The first lot should be ready around the middle of July.

Formed by the merger of 14 small plants, the Budapesti Finomacselrugogyar has recently mechanized production and plans to make razors, as well as high-quality, cold-tempered razor blades for the home market. Cold-tempering is a new and exclusive Hungarian process; it will increase the durability of the blades at least 40-50 percent.

The company has also compounded an efficient honing paste from domestic raw materials.
